CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast. In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

The story is shrouded in mystery...

At the beginning of the Virtual Century, Earth, long controlled by warring corporations, was perched on the edge of a new era of technology when the DN Group (Dyna-Tech and Nova Corporation) first discovered the mysterious Moon Gate.

By the year V.C. 96, only Enver IV, the most powerful stockholder in the DN corporation, began to realize the full potential of the Moon Gate. He was put in charge of the 9 manufacturing plants which used the 'psychic energy' that had been collecting deep within the Moon Gate's V-Crystal. The Moon Gate itself later became known as Plant 0.

These Plants drew their power from the Moon Gate's V-Crystal and came to produce the greatest combat vehicles ever known: VIRTUAROIDS!

But stability within the DN Group ended when Enver IV, for reasons known only to himself, sold all 9 plants to rival corporations. In the anarchy that followed, the DN Group was exposed as having withheld valuable and possibly dangerous information relating to the original Moon Gate. Large scale conflicts ensued. Earth's contact with the Moon Gate was lost! And the DNA, the DN Group's newly formed Virtuaroid army, was splintered into two rival factions.

The year is now V.C. a4 and a single Plant—the 9th Plant—has mysteriously vanished with the Tangram. It is believed that the Tangram could possibly control the "laws of casualty," control the Moon Gate itself, and allow certain victory for the army that finds it! You must choose sides as the DNA and RNA continue to fight for control of the nine Virtuaroid Plants.

Choose sides! Find the missing 9th Plant and find the Tangram!!!

GAME OBJECTIVE

Assume control of a Virtuaroid (referred to hereafter as "VR") and successfully defeat a VR opponent. Your VR opponent will be controlled by either another human player or the Sega Dreamcast CPU. Win by inflicting enough damage to reduce the opponent's life gauge to zero. If the timer runs out, the VR with the highest life gauge wins.

Saving Files

The following two types of save files may be required to save data with this game:

VOORANTAN.SYS

Caution:

- Operation with incompatible controllers (such as keyboard controllers/gun controllers) is not guaranteed.
- Virtual-On does not support the Mad Catz Force Pack. The Mad Catz Force Pack may not work properly with Virtual-On.
- Never touch the Analog Thumb Pad or Triggers L/R/X/A while turning the Sega Dreamcast power ON. Doing so may disrupt the controller initialization procedure and result in malfunction.

GAME DISPLAY

The lock-on appears in the screen center whenever the weapon's sight is aligned over the enemy VR. Firing the weapon fired after lock-on is achieved will cause the shot to home in on the enemy VR.

REMAINING TIME

The time remaining for the current battle set. Once this number reaches 00'00, the battle set ends.

LIFE GAUGE

This gauge will decrease whenever damage is incurred. Once it reaches zero, the VR loses. In a one-player battle, the top gauge represents the player and the bottom gauge the enemy.

BATTLE SETS ACQUIRED

Displays the number of battle sets acquired by each player.

WEAPONS SIGHT

Align this sight over the enemy VR to achieve lock-on.

GAME DISPLAY

WEAPONS GAUGES

These gauges show the energy level of each weapon. From left to right: LW (Left Weapon), CW (Center Weapon - both triggers) and RW (Right Weapon). As each weapon is used, its power level will decrease. When the gauge turns red, that weapon can no longer be used. The power level of weapons will replenish naturally over time.

TOTAL TIME

The total elapsed time since Mission 1 play was started.

V ARMOR

This percentage indicates the strength value at which a VR can deflect enemy attack. In a one-player battle, the top value represents the player and the bottom value the enemy. The higher this value is, the more likely a weak attack can be deflected. It is recommended to use a strong attack, such as a turbo attack, to weaken your opponents V armor (reduce this percentage) before proceeding with normal attacks.

Close-Range Combat Display

Whenever the VR engage in close range combat, the lock-on sight will double in size and the color of the weapons gauges will change to yellow. This is called "Close Range Combat Mode." To execute a close-range attack, press the trigger that corresponds to the yellow weapons gauge.

Double Lock-On Sight

The lock-on sight will change into a "double lock-on sight" to indicate when the VR is near enough to the enemy to execute a close range attack.

Activision grants you the non-exclusive, non-transferable, limited right and license to use one copy of this Program solely and exclusively for your personal use. All rights not specifically granted under this Agreement are reserved by Activision. This Program is licensed, not sold. Your license confers no title or ownership in this Program and should not be construed as a sale of any rights in this Program.

OWNERSHIP. All title, ownership rights and intellectual property rights in and to this Program and any and all copies thereof (including but not limited to any titles, computer code, themes, objects, characters, character names, stories, dialog, catch phrases, locations, concepts, artwork, animation, sounds, musical compositions, audio-visual effects, methods of operation, moral rights, and any related documentation, incorporated into this Program) are owned by Activision or its licensors. This Program is protected by the copyright laws of the United States, international copyright treaties and conventions and other laws. This Program contains certain licensed materials and Activision's licensors may protect their rights in the event of any violation of this Agreement.

YOU SHALL NOT:

- Exploit this Program or any of its parts commercially, including but not limited to use at a cyber café, computer gaming center or any other location-based site. Activision may offer a separate Site License Agreement to permit you to make this Program available for commercial use; see the contact information below.
- Sell, rent, lease, license, distribute or otherwise transfer this Program, or any copies of this Program, without the express prior written consent of Activision.
- Reverse engineer, derive source code, modify, decompile, disassemble, or create derivative works of this Program, in whole or in part.
- Remove, disable or circumvent any proprietary notices or labels contained on or within the Program.
- Export or re-export this Program or any copy or adaptation in violation of any applicable laws or regulations.

LIMITED WARRANTY. Activision warrants to the original consumer purchaser of this Program that the recording medium on which the Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Activision agrees to replace, free of charge, any product discovered to be defective within such period upon its receipt of the Product, postage paid, with proof of the date of purchase, as long as the Program is still being manufactured by Activision. In the event that the Program is no longer available, Activision retains the right to substitute a similar program of equal or greater value. This warranty is limited to the recording medium containing the Program as originally provided by Activision and is not applicable to normal wear and tear. IN NO EVENT WILL ACTIVISION BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE PROGRAM, INCLUDING DAMAGES TO PROPERTY, LOSS OF GOODWILL, COMPUTER FAILURE OR MALFUNCTION AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURIES, EVEN IF ACTIVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ACTIVISION'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR THE LICENSE TO USE THIS PROGRAM. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

INJUNCTION. INDEMNITY. You agree to indemnify, defend and hold Activision, its partners, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

MISCELLANEOUS. This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California.
